

Bentley Jones

To talk about your bio wouldn't be necessary, it's known by a lot of fans already.

So I would like to ask you more about the present and the future:

What about your new album *translation*?

Have you got any feedback from the fans about your new album *translation*?

The new album sounds a lot like a different style as the one you have had with Jun. What do you like about making remixes from another composer with a totally different style?

Wouldn't it be interesting for you to make such kind of songs with your own soundmixes?

As you surely know Sonic turned 18 this year. Any ideas for the birthday?

Now the brandnew **Crush40-fanclub** webpage is online, in which the artists making the sound for Sonic will be presented – you, too! Is there something you would like to say to all the fans out there?

Thank you very much for taking time for this interview!
